

病理科 研究業績 (2019年)

症例報告

- 1
 - ① Matsuo S, Nakamura Y, Hiroyoshi M, Tomiyama K, Sashikata T, Kondo N, Tsukamoto Y
 - ② A unique case of esophageal carcinosarcoma with histopathological diversities.
 - ③ Hum Pathol Case Rep
 - ④ 15
 - ⑤ 2019
 - ⑥ 1-6
 - ⑦ A unique case of esophageal carcinosarcoma with histopathological diversities.

- 2
 - ① Nakanishi M, Watari J, Tomita T, Nakanishi Y, Tsukamoto Y, Matsuo S, Uchihashi T, Miyazaki J, Tanaka H, Kojima S, Kuroda N, Matsuda I, Miwa H, Shinohara H, Hirota S
 - ② Gastric *CLTC-ALK fusion*-positive inflammatory myofibroblastic tumor showing an endoscopic superficial depressed-type appearance
 - ③ Hum Pathol Case Rep
 - ④ 15
 - ⑤ 2019
 - ⑥ 73-78
 - ⑦ Gastric *CLTC-ALK fusion*-positive inflammatory myofibroblastic tumor showing an endoscopic superficial depressed-type appearance

- 3
 - ① Tomita E, Matsuo S, Tsukamoto Y, Fukuhara K, Akashi A
 - ② Diffuse Alveolar Septal Amyloidosis with Wild-Type Transthyretin with Spontaneous Lung Hematoma.
 - ③ Ann Thorac Surg
 - ④ 107

- ⑤ 2019
 - ⑥ e131–e133
 - ⑦ Diffuse Alveolar Septal Amyloidosis with Wild-Type Transthyretin with Spontaneous Lung Hematoma.
- 4
- ① Tsukamoto Y, Iriko H, Matsuo S, Shimono Y, Miyazaki J, Tanaka H, Komatsu T, Azuma S, Oota H, Yamashita Y, Ohkouchi M, Hashikura Y, Hirota S
 - ② *Dibothriocephalus nihonkaiensis* infection identified by pathological and genetic analyses -a case report and a recent literature review of human diphyllbothriasis.
 - ③ Hum Pathol Case Rep
 - ④ 16
 - ⑤ 2019
 - ⑥ 200298
 - ⑦ *Dibothriocephalus nihonkaiensis* infection identified by pathological and genetic analyses -a case report and a recent literature review of human diphyllbothriasis.
- 5
- ① Masuda Y, Tsukamoto Y, Zenitani M, Oda Y, Kinoshita I, Kohashi K, Takemoto J, Hirota S, Shibata A, Koda T, Takeshima Y
 - ② A newborn case of jejunal ALK-negative inflammatory myofibroblastic tumor with ETV6-NTRK3 fusion.
 - ③ Pediatr Blood Cancer
 - ④
 - ⑤ 2019
 - ⑥ e27902
 - ⑦ A newborn case of jejunal ALK-negative inflammatory myofibroblastic tumor with ETV6-NTRK3 fusion.
- 6
- ① Matsuo M, Tomita E, Fukuhara K, Akashi A, Tsukamoto

Two cases of poorly differentiated synovial sarcoma arising from the chest wall - one case of Ewing sarcoma-like small cell type
② with death 4 years after the first presentation and one case of high-grade spindle cell type receiving postoperative adjuvant chemotherapy.

③ Hum Pathol Case Rep

④ 18

⑤ 2019

⑥ 200329

Two cases of poorly differentiated synovial sarcoma arising from the chest wall - one case of Ewing sarcoma-like small cell type
⑦ with death 4 years after the first presentation and one case of high-grade spindle cell type receiving postoperative adjuvant chemotherapy.

7 ① Matsuo S, Tomita E, Fukuhara K, Kasuda S, Suzuki K, Tsukamoto T

② Metastatic gestational choriocarcinoma in lung incidentally found by hemoptysis and confirmed by DNA genotyping, highly suggesting the index antecedent pregnancy of a girl.

③ Hum Pathol Case Rep
